ALTOVA®

FOR IMMEDIATE RELEASE

Altova Launches Version 2021r2 with a Completely New XML Grid View

Beverly, Mass., March 4, 2021 – Altova® (http://www.altova.com) announced the release of Version 2021 Release 2 of its MissionKit desktop developer tools and server software. This new version includes a completely overhauled XML Grid View in XMLSpy, support for XSLT3 for XML data mapping in MapForce, a charts and statistics dashboard in FlowForce Server, and much more.

XML Grid provides a graphical view of an XML document that has long been one of the most popular XML editing tools in XMLSpy. Now, in v2021r2, XML Grid View has been completely rebuilt to add advanced new functionality. New features include:

- Viewing Base-64 images as graphics
- Adapting display by swapping table rows/columns
- Real-time validation and SmartFix auto-correction
- Integrated filters and formulas
- Charts and graphs
- Copy/paste directly from external applications
- Easy viewing of very large XML files

These new XML Grid View features take this editing paradigm to the next level, allowing developers to not just visualize, understand, and edit an XML document more easily – now they can achieve far *more* than is possible in a text editor alone.

Some additional new features found in this release include:

- Support for XSLT3 for XML data mapping in MapForce
- Charts and statistics dashboard in FlowForce Server
- Support for Find and Replace in StyleVision
- Support for C# code generation for .NET Core and .NET5
- Support for additional database versions
- And many more

These and many additional features are available in Version 2021r2. To view the new features in each product and access trial downloads please visit: (https://www.altova.com/whatsnew)

About Altova

Altova® is a software company offering specialized tools for both developers and business users. The creator of XMLSpy®, MapForce® and other award-winning products, Altova is a key player in the software tools industry and the leader in XML and JSON solution development tools. The company offers a complete line of desktop developer software for XML, JSON, SQL, and UML; high-performance workflow automation server products; and a cross-platform mobile and enterprise app development platform. In addition, the Altova Cloud offers complete SaaS apps that make working with complex technologies easy for business users. With over 5.4 million users worldwide, including 91% of Fortune 500 organizations, Altova is honored to serve clients from one-person shops to the world's largest organizations. Altova is committed to delivering standards-based, platform-independent solutions that are powerful, affordable and easy-to-use. Founded in 1992, Altova is headquartered in Beverly, Massachusetts and Vienna, Austria.
